

Nuclear Waste Management Organization (NWMO) <i>Deep Geological Repository (DGR) Project</i>	Environmental Media Baseline Program <i>Tissues</i>
Land Use Information Datasheet (to be completed during first visit, if sample location changes, or if land use changes)	
What is the land use (e.g., undisturbed forest, community, forestry, cabin, agriculture, etc.)?	
Is there a road near the sampling location? Yes / No If yes, approximately how far away is the road from the sampling location (specify units)? _____	
Are there disturbances caused by industry or other human activities (e.g., forestry clearing, cabin)? Yes / No If yes, please describe and take photos (if possible): If yes, approximately how far away is the disturbance from the sampling location (specify units)? _____	
Are there point sources of contaminants (e.g., sewage outfall) near the sampling location? Yes / No If yes, please describe and indicate if historical or unknown:	
Are there non-point sources of contaminants (e.g., manure, livestock) near the sampling location? Yes / No If yes, please describe and indicate if historical or unknown:	
If the sample was collected on or near a waterbody, please also answer the following:	
Is there livestock access to the waterbody? Yes / No If yes, please describe and indicate if historical or unknown:	
Are there barriers (e.g., beaver dam, culvert) near the sampling location? Yes / No If yes, please describe and indicate if historical or unknown:	
Are there popular fishing spots near the sampling location that are used often? Yes / No If yes, how far away are the fishing spots? If yes, for which species? If yes, please indicate if fishing spots are historical or unknown:	
Is the lake known to be used for drinking water? Yes / No	
Comments/Observations:	

(For NWMO Use Only) **Sample ID:** _____
